

Once you have received your authorization code from ISU's GIS Center, visit <http://www.esri.com/landing-pages/software/arcgis/arcgis-desktop-student-trial>

From this webpage you will need to sign into your Esri global account (figure 1). If you do not have an account with Esri, you can create one immediately. Be sure to reference your ISU email when creating your Esri account.

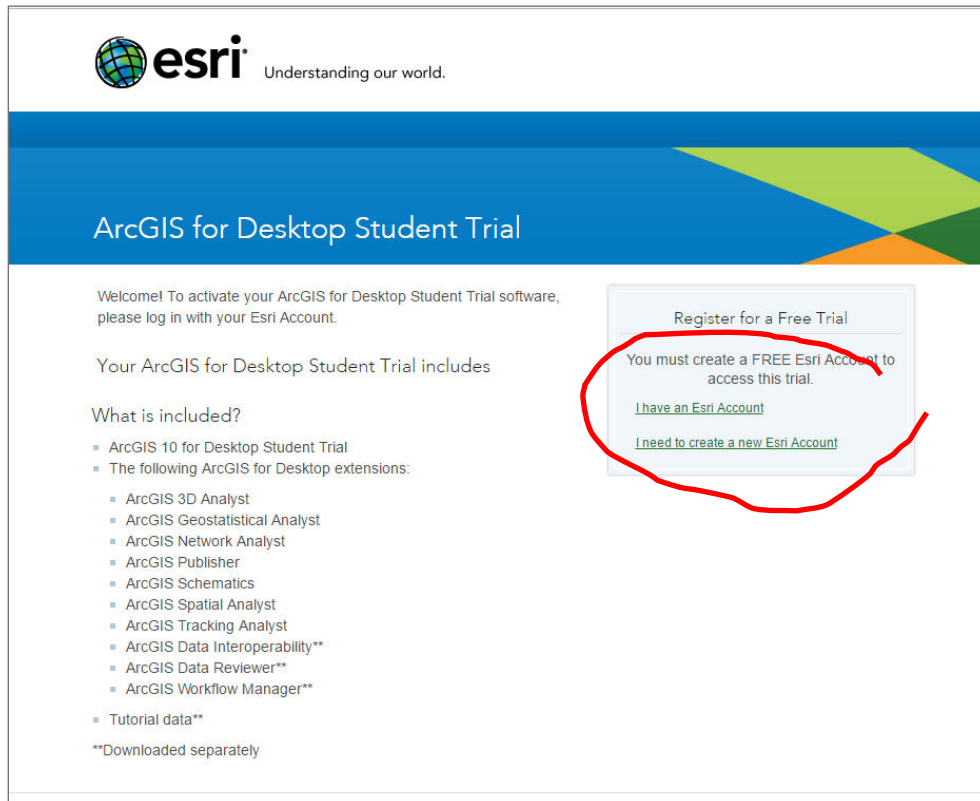

Figure 1. Esri log-in page.

After signing into your account you will be asked to provide the authorization code sent to you by ISU's GIS Center (figure 2).

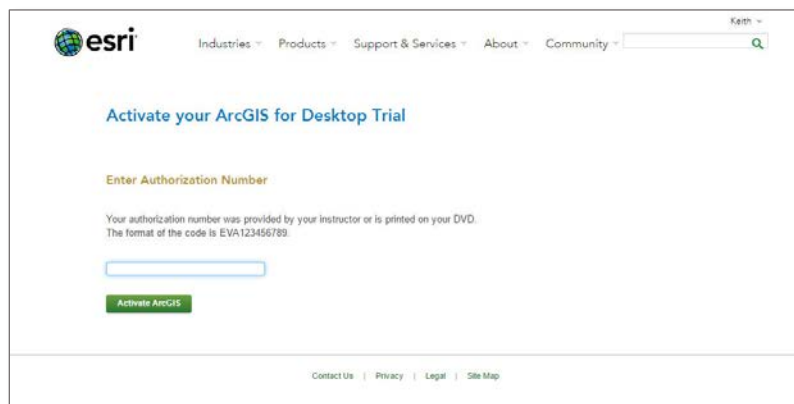

Figure 2. Enter your authorization code here

Once the authorization code has been accepted you will see your choices for software download (figure 3). As a rule of thumb you will want to choose the most current software version. If you are unsure, please ask your instructor. As of this writing, ArcGIS 10.4 is the most current version.

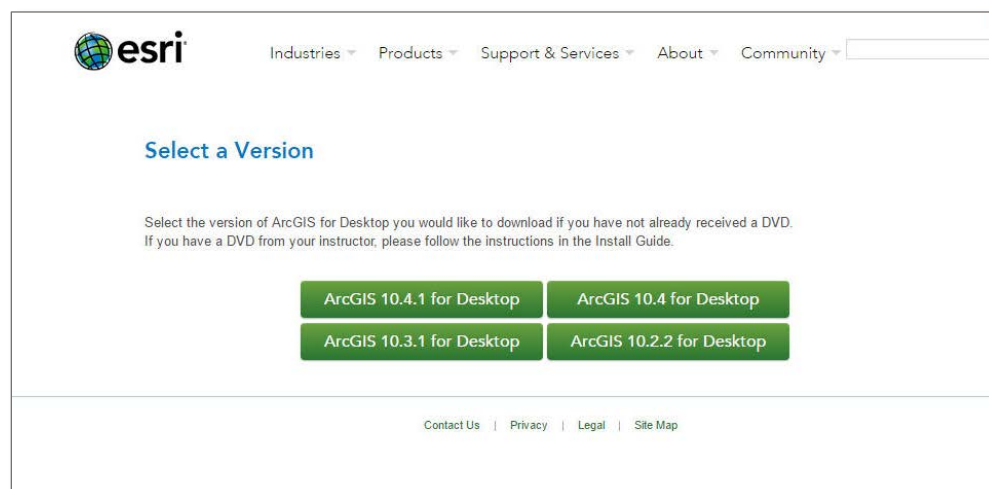

Figure 3. In most cases you will want to select the most current version of this software from this page.

On the next page you will see all the components available for the software you have selected. Read the installation instructions carefully (figure 4).

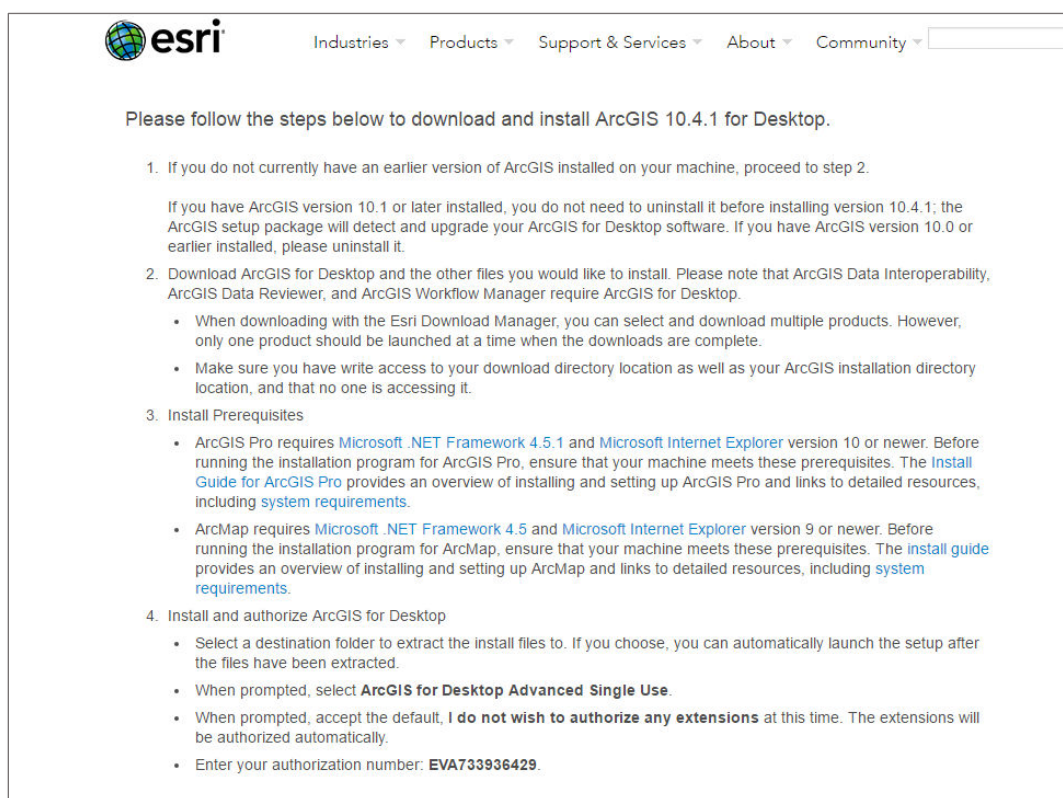

Figure 4. Read the installation instructions carefully.

Lastly, you will download the software. At a minimum choose ArcGIS Desktop and perhaps ArcGIS Pro as well (figure 5). You may wish to ask your instructor for guidance on your selections.

File Description	Documentation	Download Size	English
ArcGIS Pro	Quick Start Guide	896.51 MB	Download English
