Hello

Here at ISU's GIS TReC we continue to work closely with the Idaho Lidar Consortium (ILC) to deliver to you lidar data and training concerning how to use lidar data.

We will be adding five new Lidar projects from northern Idaho to our servers in the next few weeks, so stay tuned for news on this update.

I am also planning to offer another FREE lidar workshop during the summer. If you would like to enroll in this full-day, online workshop please let me know some dates that would work well for you in June or July.

Thanks for reading and take care.

Sincerely,

Keith T. Weber
