Hello GIS'ers

I wish I had really exciting news for you and could tell you that a bunch of new Lidar data arrived, but alas that is not the case and we continue to wait for the delivery of more Idaho lidar data from the 2018 Southern Idaho collection project.

We did complete another series of Lidar workshops last week and now even more GIS'ers around Idaho know how to process LAS files and use Lidar data for spatial analysis.

I am also happy to report that a **Lidar guidelines for Idaho** document is available now and can be accessed here https://giscenter.isu.edu/pdf/PDF_FEMA_DOS/LidarGuidanceIdaho.pdf

Have a good rest of your day Idaho!

Sincerely,

Keith T. Weber
