Hello

I have a few bits of news to share with you. First, we are revamping the Lidar Image service to eliminate serving overlapping data (yes, we have some areas in Idaho with two lidar collections) and to overall make the service better. Second, the final delivery of the giant Southern Idaho 2018 project should be in hand in the next few weeks/month. I am really excited to see these data and help get Idaho's collection completed as much as possible.

Sincerely,

Keith T. Weber
