Hello and Happy Holidays,

We finished strong in 2023 with five new Lidar project areas (Elko NW, and Southern Idaho 2018 #4, 5, 16, and 17) added in the last month. While the 2018 Southern Idaho collection is still not 100% complete, the majority of it has been completed, delivered, and available using the Idaho Lidar Web Viewer and Globus.

Visit <https://isu.maps.arcgis.com/apps/instant/media/index.html?appid=796225ca9c9f4c07a1288225ed1afd30> to see if your AOI is available.

I hope to complete the Southern Idaho collection early in 2024 and help get 100% Lidar coverage for Idaho.

One final note, I will be teaching **Working with Lidar in ArcGIS Pro as part of our three day winter workshop series**. The full-day Lidar workshop is FREE and supported by our FEMA CTP. To learn more or register for any one or all these workshops, visit: <https://giscenter.isu.edu/Workshops/index.htm>

*Sincerely,*

### Keith T. Weber
