Hello

While we continue to wait for delivery of new lidar data we have taken the time to review existing data and improve some of these data. In particular, we have recently completed a review and pit-fill enhancement for the following project sites:

Reynolds Creek 2007

Pocatello 2005

Idaho Transportation Department US26 project

Idaho Transportation Department US93 project

You can access all raw and processed lidar data using the Idaho Lidar web viewer at
