Hello
I am happy to report that our ArcGIS Enterprise Server (which provides the Lidar Image Service) is now back up and running after being down for slightly over two weeks. But the bigger news to share with you is difficult to write about but easy to show you.   That's why I have set up a special **Lidar Resources for Idaho** webinar tomorrow. I hope you can attend and learn about the new capabilities we have put in place to help you acquire and use Lidar data.

Here are the webinar details: **11:30am-noon MT Thursday August 22nd**
Learn about Idaho's Lidar resources: The Idaho Lidar Consortium, Idaho Lidar Web Viewer, Lidar Image Service, and our newest addition, the Instant Download

Join from PC, Mac, Linux, iOS or Android: https://isu.zoom.us/my/gistrec
