Hello

Numerous Digital Surface Models (DSM) for Idaho lidar project areas have been uploaded to the ISU GIS TREC servers and are now available for download. You will find these data under the "processed" folders and if a DSM layer is currently available for a specific project area you will find it in a DSM sub-folder. Use our Idaho Lidar Web Viewer to find these data <https://isu.maps.arcgis.com/apps/instant/media/index.html?appid=796225ca9c9f4c07a1288225ed1afd30>

[Here is an example](#) of what one of our DSM models look like when viewed as a 3D scene in ArcGIS Pro draped with 2023 NAIP imagery.

When this project is finished, all project areas will have DSM data available.

Have a good rest of your day!

Sincerely,

Keith T. Weber, GISP
