Hello

I have some updates to share with you regarding Lidar in Idaho. First we are offering another workshop on "Working with Lidar in ArcGIS Pro". This workshop has already filled but I will be offering it again later this winter. If you would like to get on the waiting list for the next workshop and have the opportunity to register before it is broadly opened, just send me an email indicating your interest in this workshop. This full-day, hands-on workshop is free.

The 2020 Lidar data collection has been acquired. These data are being calibrated, reviewed and processed.

*Sincerely,***Keith T. Weber**
