Hello

Great news folks. QL1 and QL2 Lidar data for much of Owyhee County is now available. Just visit <https://giscenter.isu.edu/styler/?appid=163bf5887aa04f308a15fe8e44963bf8> and notice the new data area in southwest Idaho (Owyhee County).

We also uploaded the North Idaho USFS lidar projects from 2016-2018 and are currently working on additional northern Idaho Lidar collected in 2019.

These are very large datasets and we have tried to break them down into manageable chunks for you along with reference maps... all available on our lidar servers.

Sincerely,

Keith T. Weber
