Hello

We have more good news to share with you regarding lidar data for Idaho. That is the acquisition of additional lidar datasets in northern Idaho. We received a copy of the USFS Region one lidar acquired between 2016 and 2018. Most of these datasets were new to Idaho and they are now posted on our server including both raw LAS files and processed raster TIFFs. I will be updating the Idaho Lidar Web Viewer map in just a few days to make accessing these data all the easier. In the meantime, you can take a look at these data areas by opening our reference map at [https://giscenter.isu.edu/files/USFS\\_R1\\_2016\\_2018\\_ReferenceMap.pdf](https://giscenter.isu.edu/files/USFS_R1_2016_2018_ReferenceMap.pdf)

*Sincerely,***Keith T. Weber**
